CPA's Audit Report

(2025) Financial Review Report No. 24002029

To YUAN High-Tech Development Co., Ltd.,

Opinions

The Balance Sheet as of December 31, 2024 and 2023, the Comprehensive Income Statement, the Statement of Changes in Equity and Cash Flow Statement for the period from January 1 to December 31, 2024 and 2023, as well as the Notes to the Financial Statements (including a summary of material accounting policies) of YUAN High-Tech Development Co., Ltd. (hereinafter referred to as YUAN Company), have been reviewed by us.

According to our review results, we have determined that the foregoing financial statements have been prepared in all material respects in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers as well as International Financial Reporting Standards endorsed by the Financial Supervisory Commission (FSC), International Accounting Standard, IFR IC Interpretations, and SIC Interpretations, with a fair presentation of the financial position as of December 31, 2024 and 2023, the financial performance and the cash flows for the period from January 1 to December 31, 2024 and 2023 of YUAN High Tech Development Co., Ltd.

Basis for Audit Opinion

We conducted our audits in accordance with the Regulations Governing the Auditing and Attestation of Financial Statements by Certified Public Accountants and Auditing Standards of the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. Personnel of our affiliated firm subject to independence standards has maintained their independence from YUAN Company in accordance with the R.O.C. Statement of Ethics, and performed other obligations hereof. We believe that we have obtained sufficient and appropriate evidence as the basis for the audit opinion.

Key Audit Matters

Key audit matters refer to the most important matters to the audit of 113 financial statements of YUAN Company in the professional judgement according to our professional judgment. These matters were addressed in the context of our audit of the Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

The key audit matters of 2024 financial statements of YUAN Company are as follows:

Closing of Operating Revenue

Explanations

For the accounting policy of recognition of revenue, please refer to Note IV (XXIV), for accounting items of operating revenue and its explanations, please refer to Note VI (XV), and the amount of 2023 operating revenue is NT$1,194,219.

The sales mode of YUAN Company is that the operating revenue is recognized upon warehouse shipments of processing plant, and the revenue is recognized upon shipment by the processing plant (control of inventory is transferred to client). The Company mainly relies on the statements or other information provided by the warehouse custodian of the processing plant as the basis for the recognition of revenue based on the inventory changes in the warehouse of the processing plant, and the point of sales recognition varies according to the conditions of the customer agreement. These recognized revenue processes typically involve many manual operations and may result in inappropriate revenue recognition or inconsistencies between the inventory custody entity and the number of books on file. Because the daily sales volume of YUAN Company is large and the impact of the transaction amount on the financial statements before and after the end of the financial statements is material, we have listed the closing of sales revenue as one of the most important matters to be audited.

Major Audit Procedures

The following is a summary of the corresponding procedures that have been implemented by the CPA for the specific aspects described in the key audit matters:

1. Understand the business model of YUAN Company and evaluate the rationality of its cycle system of operating revenue.
2. Run a closing test for the transactions of operating revenue for a certain period before and after the closing date, including supporting documents for verification of warehouse shipments at processing plants, and records of inventory movements recorded in the appropriate period.
3. Perform field observation on inventory quantities and check with the inventory quantities recorded in the accounts. In addition, track the reasons for the discrepancies between the inventory observation and the quantities recorded in accounts, and test the reconciling items prepared by YUAN Company to confirm that material differences are recorded in the accounts.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

To ensure that the Financial Statements do not contain material misstatements caused by fraud or errors, the management is responsible for preparing prudent Financial Statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers, as well as the International Financial Reporting Standard, International Accounting Standard, IFRIC Interpretations, and SIC Interpretations as endorsed and issued by the Financial Supervisory Commission, and for preparing and maintaining necessary internal control procedures pertaining to the Financial Statements.

In preparing the financial statements, the management's responsibilities also include assessing the Company's ability as a going concern, disclosing relevant matters, and adopting the accounting basis for a going concern, unless the management intends to liquidate the Company or cease to operate, or there is no practical alternative other than liquidation or closure.

The governing body (including audit committee) of YUAN Company is responsible for supervising the financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatements, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high degree of assurance, but there is no assurance that the audit performed in accordance with the Auditing Standards of the Republic of China will detect any material misrepresentations in the financial statements. Misstatements can arise from fraud or error. Misstatements are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Auditing Standards of the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and evaluate the risk of material misstatements due to fraud or error in the Financial Statements; design and carry out appropriate countermeasures for the evaluated risk; and obtain sufficient and appropriate evidence as the basis for their audit opinion. Because fraud may involve collusion, forgery, intentional omission, misrepresentation or transgression of internal control, the risk of failure to detect the material misrepresentation due to fraud is higher than that of due to error.
2. Obtain the necessary understanding of the internal control related to the audit to design the appropriate audit procedures under the circumstances, provided that the purpose is not to express an opinion on the effectiveness of the internal control of YUAN Company.

3. Evaluate the appropriateness of accounting policies adopted by management as well as the reasonableness of accounting estimate and related disclosures.
4. Draw conclusions as to the appropriateness of the adopting basis for a going concern adopted by the management, and whether there is any material uncertainty on events or circumstances that may raise material concerns about the ability for a going concern of YUAN Company. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. We draw our conclusion on the basis of the audit evidence obtained as of the audit report date. However, future events or circumstances may cause YUAN Company to cease to have the ability for a going concern.
5. Evaluate the overall expression, structure and contents of the Financial Statements (including relevant Notes), and whether the Financial Statements fairly present relevant transactions and items.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence of the Republic of China, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

We decide on the key audit matters of 113 financial statements of YUAN Company from the matters communicated with the governance body. We specify these matters in the audit report, unless certain matters that are allowed for public disclosure by law, or in rare cases, we decide not to communicate certain matters in the audit report, because the negative impact of this communication can reasonably be expected to exceed the public interest improved.

IV. Summary of Significant Accounting Policies

The main accounting policies adopted in the preparation of this financial report are described below. Unless otherwise stated, these policies apply consistently throughout all reporting periods.

(I) Statement of Compliance

This financial report has been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers, as well as International Financial Reporting Standard, International Accounting Standard, IFRIC Interpretations, and SIC Interpretations (hereinafter referred to as "IFRSs") as endorse d and issued by the Financial Supervisory Commission.

(II) Basis of Preparation

1. Except for the following important items, this financial report is prepared at historical cost:
   A defined benefit liability is recognized as the net value of the pension fund assets minus the present value of the defined benefit obligation.

2. The preparation of financial report in compliance with IFRSs requires the use of certain significant accounting estimates. It also requires management to exercise its judgment in the process of applying the Company's accounting policies. Please refer to Note V for items involving in a higher degree of judgment or complexity or items involving in significant assumptions and estimates to the financial report.

(III) Translation of foreign currency

The items presented in the financial report of the Company are measured at the currency (i.e., functional currency) of the main economic environment in which the Company operating. This financial report is presented in the functional currency of the Company, New Taiwan Dollar.

Transaction in foreign currencies and balances

1. Transaction in foreign currencies are translated into functional currencies at the spot exchange rate on the trading day or the measurement date, and the translation differences generated by such transactions are recognized as profit or loss for the current period.

2. The balance of monetary assets and liabilities in foreign currencies shall be evaluated and adjusted according to the spot exchange rate on the balance sheet date, and the translation differences generated by such adjustment shall be recognized as profit and loss for the current period.

3. If the balance of non-monetary assets and liabilities in foreign currencies is not measured at fair value, it shall be measured at the historical exchange rate of the initial trading day.

4. All other exchange gains and losses shall be presented under "Other gains and losses" in the Income Statement.

(IV) The classification criteria for assets and liabilities whether are current or non-current

1. An asset that meets any of the following conditions shall be classified as current asset:

   (1) The asset is expected to be realized, or intended to be sold or consumed in the normal operating cycle;
   (2) The liability is held primarily for trading purposes;
   (3) The asset is expected to be realized within 12 months after the balance sheet date; and
   (4) The asset is cash or a cash equivalent unless the asset is restricted from being exchanged or used to pay off a liability at least 12 months after the balance sheet date.

   The Company classifies all assets that do not meet the foregoing conditions as non-current.

2. A liability that meets any of the following conditions shall be classified as current liability:

   (1) The liability is expected to be paid off in the normal operating cycle;
   (2) The liability is held primarily for trading purposes;
   (3) The liability is expected to be paid off within 12 months after the balance sheet date; and
   (4) Not having the right to defer the settlement of liabilities for at least twelve months after the reporting period.

   The Company classifies all liabilities that do not meet the foregoing conditions as non-current.

(V) Cash equivalents

Cash equivalents refer to short-term investments with highly liquidity that can be converted into quota cash at any time with little risk of change in value. Time deposits that meet the foregoing definition and are held for the purpose of meeting short-term cash commitments in operation are classified as cash equivalents.

(VI) Accounts receivable

1. Accounts receivable refer to the accounts which have the right to unconditionally receive the consideration for the transfer of goods or services in accordance with the contract.
2. The Company measures the short-term accounts receivable without interest paid at the original invoice value, due to the little effect from the discount.
3. The Company's expected factoring receivables are operated for the purpose of selling, and shall be measured at fair value subsequently, with changes recognized as profit and loss for the current period.

(VII) Impairments of financial assets

At each balance sheet date, the Company, taking into account all reasonable and verifiable information (including forward-looking information) regarding financial assets measured at amortized cost, and accounts receivable with material financial components, measures the loss allowance by the expected credit loss in 12 months for those without credit risk increased significantly since the initial recognition, and measures the loss allowance by the expected credit loss during the duration for those with credit risk increased significantly since the initial recognition. For accounts receivable that do not contain a material financial

component, the Company measures the loss allowance by the expected credit loss during the duration.

(VIII) Derecognition of financial assets

The Company will derecognize a financial asset if:

1. The contractual rights to receive cash flows from the financial asset expire.
2. The Company transfers the contractual rights to receive cash flows from the financial asset and virtually has transferred all the risks and rewards of the ownership of the financial asset.
3. The Company transfers the contractual rights to receive cash flows from the financial asset without retaining control over the financial asset.

(IX) Lessor's lease transaction - operating lease

The deduction of any inducement given to the lessee from the lease income of an operating lease shall be recognized as the current profit or loss by the straight-line method during the lease term.

(X) Inventories

Inventory shall be measured at the lower of cost or net realized value, and the cost is determined by weighted average method. The costs of finished goods and work in process include raw materials, direct labor, other direct costs and manufacturing overhead related to production, but does not include borrowing costs. The item by item comparison method is adopted for the lower of comparative cost and net realized value. The net realized value refers to the balance of the estimated selling price in the normal course of business minus the estimated cost to be invested until completion and estimated costs required to complete the sale.

(XI) Property, plant and equipment

1. Property, plant and equipment are accounted for on the basis of acquisition cost.

2. Subsequent costs are included in the asset's carrying amount or recognized as separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replacement shall be derecognized. All other maintenance costs shall be recognized as current profit or loss when incurred.

3. Property, plant and equipment shall be subsequently measured by the cost model, and shall be depreciated by the straight-line method based on the estimated service life except for land. If each item of property, plant and equipment is material, it shall be depreciated separately.

4. The Company reviews each asset's residual values, service lives and depreciation methods at the end date of each fiscal year. If expected values of residual values and service lives differ from the previous estimates or there has been a material change in the expected consumption pattern of the future economic benefits contained in the asset, it shall be treated in accordance with the provisions of the IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors for changes in accounting estimates since the date of the change.

The service life of each asset is as follows:

Machinery equipment	5 Years
Transportation equipment	5 Years
Office equipment	3 to 5 Years

(XII) Lessee's lease transaction - right-of-use assets/lease liabilities

1. The leased assets shall be recognized as the right-of-use assets and lease liabilities on the date when they are available to the Company. When the lease contract is a short-term lease or a lease of an underlying asset of low value, the lease payment shall be recognized as expense during the lease period by straight-line method.

2. The lease liabilities shall be recognized at the present value of the unpaid lease payments at the commencement date of lease discounted at the Company's interest rate on the increment loan. A lease payment is a fixed payment minus any lease inducement that may be received.

   The lease liabilities shall be measured by the interest method and the amortized cost method subsequently, and the provision for interest expense shall be made during the lease term. When the lease term or lease payment changes not due to the contract modification, the lease liability will be reassessed and the remeasurement amount will be adjusted to the right-of-use asset.

3. The right-of-use assets shall be recognized at cost on the commencement date of lease, and the cost shall include:

   (1) The initial measurement amount of the lease liability;

   (2) Any lease payment paid on or before the commencement date.

   The right-of-use assets shall be measured by the cost model subsequently, and the provision for depreciation expense shall be made on the earlier of the expiry date of the asset's service life or the expiry date of the lease term. When the lease liability is reassessed, the right-of-use assets will be adjusted to any remeasurement of the lease liability.

4. For a lease modification that reduces the scope of the lease, lessee will reduce the carrying amount of the right-of-use asset to reflect the partial or full termination of the lease, and recognize the difference between the carrying amount and the remeasurement amount of the lease liability in the profit and loss.

(XIII) Investment properties

Investment properties shall be recognized at acquisition cost, and measured by the cost model subsequently. Except for land, investment property shall be depreciated by the straight-line method according to the estimated service life, which is 10-20 years.

(XIV) Intangible assets

Computer software

Computer software shall be recognized at acquisition cost, and amortized over an estimated service life of 1 - 5 years by the straight-line method.

(XV) Impairment of non-financial assets

On the balance sheet date, the Company estimates the recoverable amount of the assets with an indication of impairment, and recognizes the impairment loss when the recoverable amount is lower than the book value. The recoverable amount refers to the fair value of an asset minus the cost of disposal or its use value, whichever is higher. When the impairment of an asset recognized in previous years does not exist or decreases, the impairment loss shall be reversed, provided that the increase in the carrying amount of the asset resulting from the reversal of the impairment loss shall not exceed the carrying amount of the asset after deducting depreciation or amortization if the impairment loss is not recognized.

(XVI) Accounts and notes payable

1. Accounts and notes payable are debts incurred for the purchase of raw materials, goods or services on credit and notes payable incurred either arising from business or not arising from business.

2. The Company measures the short-term accounts and notes payable without interest paid at the original invoice value, due to the little effect from discount.

(XVII) Derecognition of financial liabilities

The Company derecognizes financial liabilities when its contractual obligations specified have been performed, canceled or due.

(XVIII) Offsetting of financial assets and liabilities

The Company may offset the financial assets and financial liabilities against each other and present them net in the balance sheet only when it has a legally enforceable right to offset the recognized amount of financial assets and liabilities, and intends to close on a net basis or realize assets and pay off liabilities at the same time.

(XIX) Liability provision

Provision for liabilities (including warranties and provisions for liabilities arising from litigation) shall be recognized when the Company has a current legal or constructive obligation arising from a past event, and it is likely that the Company will have to discharge resources with economic benefit in the future to fulfill the obligation, the amount of such obligation can be reliably estimated. The provision for liabilities shall be measured by the best estimated present value of the expenditure required to fulfill the obligation at the balance sheet date, with a pre-tax discount rate which reflects the current market assessment of the time value of money and the specific risk of the liability. The amortization of the discount shall be recognized as interest expense. No provision for liabilities shall be recognized for future operating losses.

(XX) Employee benefits

1. Short-term employee benefits

Short-term employee benefits shall be measured at the undiscounted amount expected to be paid and shall be recognized as expenses when the services are provided.

2. Pension

(1) Defined contribution plans

For a defined contribution plan, the amount of the pension fund to be contributed shall be recognized as the current pension cost on an accrual basis. Contributions paid in advance shall be recognized as assets to the extent refundable cash or reduced future payments.

(2) Defined benefit plans

A. Net obligations under defined benefit plans shall be calculated by discounting the amount of future benefits earned by the employee from the current or past services, and by present value of defined benefit obligations less the fair value of plan assets at the balance sheet date. Net obligations under defined benefit plan shall be calculated on an annually basis by actuaries using the projected unit benefit method. The discount rate adopted shall be the market yield (at the balance sheet date) of government bonds in the same currency and period as the defined benefit plan at the balance sheet date.

B. The remeasurement amount generated by the defined benefit plan shall be recognized in other comprehensive income for the period in which it is incurred and expressed in retained earnings.

3. Employees' compensation and remuneration to directors

Employees' compensation and remuneration to directors shall be recognized as expenses and liabilities where there are legal or constructive obligations and the amounts can be reasonably estimated. If there is a difference between the actual amount distributed and the accrued amount resolved subsequently, it shall be treated as a change in accounting estimate. In addition, if employees' compensation is issued in stock, the number of shares shall be calculated based on the closing price of the day prior to the resolution of the Board of Directors.

(XXI) Income tax

1. Income tax expense includes current and deferred income taxes. Income tax shall be recognized in profit and loss, except that income tax related to items included in other comprehensive income or directly included in equity shall be separately included in other comprehensive income or directly included in equity.

2. The Company shall calculate the current income tax on the basis of the tax rates that are legislated or substantially legislated at the balance sheet date by the country in which the Company operates and generates its taxable income. Management shall evaluate on a regularly basis the status of income tax returns in respect of applicable income tax regulations and, where applicable, estimate income tax liabilities based on the taxes expected to be paid to tax authorities. The expense of income tax imposed on undistributed earnings under the Income Tax Act shall not be recognized according to the actual distribution of undistributed earnings until the next year of the year in which the surplus is generated after the earnings distribution plan is approved by the shareholders' meeting.

3. Deferred income tax shall be recognized on the basis of temporary differences between the tax basis of assets and liabilities and their carrying amounts on the balance sheet, using the balance sheet method. Deferred tax is subject to the tax rate (and tax law) that is legislated or substantially legislated at the balance sheet date and is expected to apply at the time of realization of the relevant deferred tax asset or settlement of the deferred tax liability.

4. Deferred income tax assets shall be recognized to the extent that temporary differences are likely to be used to offset future taxable income, and the unrecognized and recognized deferred income tax assets shall be reassessed on each balance sheet date.

5. The Company shall offset the current income tax assets and current income tax liabilities against each other only when it has the legal enforcement power to offset the recognized current income tax assets and liabilities against each other and intends to repay them on a net basis or realize assets and pay off liabilities at the same time. The Company shall offset the deferred income tax assets and liabilities against each other only when it has the legal enforcement power to offset the current income tax assets and the current income tax liabilities against each other, and the deferred income tax assets and liabilities are generated by the same taxpayer, or by different taxpayers, levied by the same tax authority, provided that each taxpayer intends to repay them on a net basis or realize assets and pay off liabilities at the same time.

6. Unused income tax credits transferred in later period arising from research and development expenditure shall be recognized as income tax assets to the extent that future tax income is likely to be available for the use of the unused income tax credit.

(XXII) Share capital

1. Common stock is classified as equity, and the incremental costs directly attributable to the issuance of new shares or stock options shall be included as price deduction in equity with the net amount after deduction of income tax.

2. When the Company repurchases its outstanding shares, it recognizes the consideration paid, including any directly attributable incremental costs, as a reduction of shareholders' equity on a net after-tax basis. When the repurchased shares are subsequently re-issued, the difference between the book value and the consideration received after deducting any directly attributable increment costs and income tax effects of the repurchased shares shall be recognized as an adjustment of shareholders' equity.

(XXIII) Dividend distribution

Cash dividends distributed to the Company's shareholders shall be recognized in the financial report when the dividends distribution are approved by resolution of the shareholders' meeting or by special resolution of the Board of Directors. Cash dividends distribution shall be recognized as liabilities, while stock dividends distributed to the shareholders of the Company shall be recognized as stock dividends to be distributed when the distribution is resolved at the Company's stockholders' meeting, and recognized as ordinary shares on the base date of issue of new shares.

(XXIV) Recognition of revenue

1. Merchandise sales

(1) The Company develops, manufactures and sells computer multimedia peripheral video converters, interface cards and other related products, and recognizes the sales revenue when the control of the products is transferred to the customer, that is, when the products are delivered to the customer, the customer has the discretion over the distribution and price of the products, and the Company has no outstanding performance obligations that may affect the customer's acceptance of the products. The delivery of products shall be deemed to have occurred only when the products are shipped to the designated location, the risk of obsolescence and loss has been transferred to the customer and the customer has accepted the products pursuant to the sales contract or there is objective evidence that all acceptance criteria have been met.

(2) The Company provides standard warranty for the products sold, shall be obligated to refund for product defects, and shall recognize liability provisions at the time of sales.

(3) Accounts receivable shall be recognized when the goods are delivered to the customer, since the Company has an unconditional right to the contract price from that point on and can collect consideration from the customer only after the lapse of time.

2. Acquisition costs of customer contracts

The incremental costs incurred by the Company in obtaining the customer contracts are expected to be recoverable. However, as the contract period is less than one year, such costs shall be recognized as expenses when incurred.

(XXV) Operating segments

Information about the Company's operating segments is reported in a manner consistent with internal management reports provided to principal operating decision maker. The principal operating decision maker is responsible for allocating resources to the operating segments and evaluating their performance. The principal operating decision maker of the Company is identified as the Board of Directors.

V. Major sources of uncertainty in major accounting judgments, estimates and assumptions

At the time of the preparation of this financial report, management has used its judgment in determining the accounting policies to be adopted and has made accounting estimates and assumptions based on reasonable expectations concerning future events according to the current conditions as at the balance sheet date. Significant accounting estimates and assumptions made that may differ from actual results will be continuously evaluated and adjusted taking into account historical experience and other factors. Such estimates and assumptions are subject to the risk of a material adjustment of the carrying amounts of assets and liabilities in the following fiscal year. Please refer to the following descriptions of the uncertainties in significant accounting judgments, estimates and assumptions:

(I) Significant judgments adopted for accounting policies
None.

(II) Significant accounting estimates and assumptions
Valuation of inventory

Since inventories are valued at the lower of cost and net realized value, the Company must use judgment and estimation to determine the net realized value of inventories at the balance sheet date. Due to rapid changing technology, the Company evaluates the amount of inventory for normal wear and tear, obsolescence, or without market value at the balance sheet date and offsets the cost of inventory to net realized value. This inventory valuation is based primarily on product demand estimates for specific periods in the future and may be subject to material change.

As of December 31, 2024, the carrying amount of the Company's inventory is NT$413,104.

(X) Pension

1. (1) In accordance with the provisions of the Labor Standards Act, the Company has formulated a retirement plan with defined benefits, which applies to the seniority of all regular employees prior to the implementation of the Labor Pension Act on July 1, 2005, and to the subsequent seniority of employees who choose to continue to apply the Labor standards Act after the implementation of the Labor Pension Act. If an employee is eligible for retirement, the pension payment shall be based on his/her seniority and the average salary of the six months prior to his/her retirement. Two bases will be given for each year of service up to 15 years (inclusive), and one base will be given for each year of service exceeding 15 years, subject to a maximum of 45 accumulated bases. The Company allocates 2% of the total salary per month to the retirement fund, which is deposited in a special account at the Bank of Taiwan in the name of the Supervisory Committee of Labor Retirement Reserve. In addition, before the end of each fiscal year, the Company shall estimate the balance of the special account for the retirement reserve fund for the employees referred to in the preceding paragraph. If the balance is insufficient to cover the estimated pension amount of the employees eligible for retirement in the following year, the Company will allocate the balance in a lump sum before the end of March next year.

   (2) The amounts recorded in the balance sheet are as follows:

Pension contribution	-	3,000	3,000
Balance as of December 31	($ 46,192)	$ 48,879	$ 2,687

(4) The fund assets of the defined benefit retirement plan of the Company are entrusted and operated by the Bank of Taiwan within the proportion and amount of the entrusted operation items determined in the annual investment and utilization plan of this fund year in accordance with items in Article VI of Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund (Depositing in financial institutions at home and abroad,

investing in listed, OTC or private equity securities and investing in securitized merchandise of domestic and foreign real estate, etc.), and relevant application is supervised by Labor Funds Supervisory Committee. The minimum income of the annual account distribution from the use of the funds shall not be less than the income calculated at the interest rate of two year term deposits of local banks, or, if there is any deficiency, it shall be supplemented by the State Treasury after being approved by the Regulator. Since the Company has no right to participate in the operation and management of the Fund, it is unable to disclose the classification of the fair value of the plan assets in accordance with Paragraph 142 of IAS 19. For the fair value of the Fund's total assets constituted on December 31, 2024 and 2023, p lease refer to the annual utilization report on labor retirement fund announced by the government.

(5) The actuarial assumptions relating to the pensions are summarized as follows:

	2024	2023
Discount Rate	1.50%	1.20%
Future salary increase rate	2.50%	2.50%

Assumptions for future mortality are estimated on the basis of the 6th Experience Life Table of the Life Insurance Industry.

The present value of defined benefit obligations affected by changes in major actuarial assumptions adopted is analyzed as follows:

	Discount Rate		Future salary increase rate	
	Increase by 0.25%	Decrease by 0.25%	Increase by 0.25%	Decrease by 0.25%

Cash flow and interest rate risks with fair value

A. The main interest-bearing assets of the Company are cash (presented as "cash and cash equivalents"). As all the maturity dates are less than 12 months, there is no material risk of interest rate changes affecting the cash flow.

B. The Company does not use any financial instruments to hedge its interest rate risk.

(2) Credit risk

A. The credit risk of the Company is the risk of financial loss of the Company due to the failure of a customer or a counterparty of a financial instrument to fulfill its contractual obligations, which is mainly caused by the inability of the counterparty to repay the cash flow of accounts receivable payable on the terms of collection.

B. The Company establishes credit risk management from a corporate perspective. In accordance with the stated internal credit policy, each of the Company's operating units shall carry out the management and credit risk analysis of each new customer before establishing the payment and delivery terms and conditions with such customer. Internal risk control is to assess the credit quality of customers by taking into account their financial position, historical experience, and other factors.

C. The Company adopts IFRS 9 to provide the following assumptions as a basis for judging whether the credit risk of a financial instrument has increased significantly since the initial recognition:

When the contract payment is overdue for more than 90 days according to the agreed terms, it is deemed that the credit risk of a financial asset has increased significantly since the initial recognition.

D. The Company adopts IFRS 9 to provide assumptions that if the contract payment is overdue for more than 180 days according to the agreed terms, it is deemed to have breached the contract.

E. The Company groups the accounts receivable from customers according to the characteristics of customer ratings and customer types and adopts a simplified approach to estimate the expected credit losses based on a provision matrix.

F. The Company adjusts the loss rate based on historical and current information for a specific period by taking into account the forward-looking considerations for the future to estimate the allowance for losses on accounts receivable. The reserve matrices as of December 31, 2024 and 2023 are as follows:

	Not overdue		1 - 90 days overdue	
December 31, 2024				
Expected loss rate	7.5%		7.5%	
Total book value	$	12,952	$	602
Allowance for loss		1,310		45

	91-180 days overdue	More than 181 days overdue	Total
December 31, 2024			
Expected loss rate	67.84%	100%	
Total book value	$ -	$ -	$ 13,554
Allowance for loss	-	-	1,355

	Not overdue	1 - 90 days overdue
December 31, 2023		
Expected loss rate	5.75%	5.75%
Total book value	$ 10,054	$ 124
Allowance for loss	996	7

	91-180 days overdue	More than 181 days overdue	Total
December 31, 2023			
Expected loss rate	37.50%	100%	
Total book value	$ -	$ 16	$ 10,194
Allowance for loss	-	16	1,019

G. The statement of changes in allowance loss of the Company's accounts receivable adopting simplified approach is as follows:

	2024
	Accounts receivable
January 1	$ 1,019
Provision for the current period	336
December 31	$ 1,355

	2023
	Accounts receivable
January 1	$ 9
Provision for the current period	1,010
December 31	$ 1,019

(3) Liquidity risk

A. The Company's Finance Department monitors the Company's working capital requirements to ensure that adequate funds are available to meet operational requirements.

B. The Company invests the remaining funds in interest-bearing demand deposits and time deposits (presented as "cash and contractual cash"). The instrument chosen by the Company has an appropriate maturity date or sufficient liquidity. The Company held the monetary market positions of NT$593,999 and NT$517,294 as of December 31, 2024 and 2023, respectively, which are expected to generate immediate cash flows to manage liquidity risk.

C. The Company's non-derivative financial liabilities and derivative financial liabilities settled on a net or gross basis are grouped according to their respective maturity dates, which are analyzed based on the remaining period from the balance sheet date to the contractual maturity date; while derivative financial liabilities are analyzed based on the remaining period from the balance sheet date to the expected maturity date.

The amounts of contractual cash flows disclosed in the following table are undiscounted amounts for financial liabilities with maturities of more than one year.

December 31, 2024	Within 1 year	1 to 2 years	2 to 5 years	Over 5 years
Non-derivative financial liabilities:				
Lease liabilities	$ 16,517	$ 4,965	$ -	$ -

December 31, 2023	Within 1 year	1 to 2 years	2 to 5 years	Over 5 years
Non-derivative financial liabilities:				
Lease liabilities	$ 11,072	$ 5,601	$ -	$ -

In addition to the aforementioned points, it should be noted that the Company's non-derivative financial assets and liabilities are all due within one year. It is not anticipated that the timing of cash flows, as analyzed at maturity, will be materially earlier or that the actual amounts will be materially different.

(III) Information on fair value

1. Please refer to Note VI.(VIII) for the details of fair value of investment properties measured at costs.

2. The carrying amounts of financial instruments not measured at fair value, including cash and cash equivalents, accounts receivable, other receivables, notes payable, accounts payable and other payables, are a reasonable approximation of their fair values.
